

CSS Quiz 2

- Due Nov 24 at 11:59pm
- Points 40
- Questions 16
- Available Nov 11 at 12am - Dec 1 at 11:59pm
- Time Limit None
- Allowed Attempts 5

Instructions

THIS IS AN "OPEN BOOK" QUIZ - YOU HAVE 5 RETAKES AS WELL!

If you are unable to find the answers in the book, feel free to "Google" them as well.

This is our 2nd and final quiz for the semester! Below you will find a quiz that is solely CSS-related questions. There are a total of 16 questions (each question is worth 2.5 pts) for a total of 40 pts! You have 2 weeks to complete this exam. Good luck!

Score for this attempt: 40 out of 40

Submitted Nov 16 at 5:14pm

This attempt took 59 minutes.

Question 1

2.5 / 2.5 pts

What does CSS stand for?

Correct!

☒ Cascading Style Sheet

This is correct! The code is read from top to bottom. It "cascades".

☐ Colorful Style Sheet

☐ Computer Style Sheet

☐ No answer text provided.

Question 2

2.5 / 2.5 pts

When using the margin property; are you allowed to use negative values?

Correct!

☒ True

Yes! You are allowed to use both negative and positive values when using the margin property.

☐ False

Question 3

2.5 / 2.5 pts

Which property is used to change the "left margin" of an element?

☐ indenting

Correct!

☒ margin-left

you can change the margin on any side of your element using margin-FILL_IN_THE_BLANK (top, right, bottom, left)

☐ padding-left

Question 4

2.5 / 2.5 pts

How do you display a border like this using the "shorthand" version -- remember "clockwise":

The top border = 10 pixels

The bottom border = 5 pixels

The left border = 20 pixels

The right border = 1pixel?

(hint: it is currently out of order...)

- ☐ border-width: 5px 1px 10px 20px
- ☐ border-width: 1px 20px 10px 5px
- ☐ border-width: 20px 1px 10px 5px

Correct!

- ☒ border-width: 10px 1px 5px 20px

Yes! The order goes... TOP RIGHT BOTTOM LEFT

Question 5

2.5 / 2.5 pts

How do you select elements with the --class-- of 'dogs'?

Correct!

- ☒ .dogs

Correct! Be sure to use the " ." <---- this! next to your "selector" --- should be in front of the selector as seen in answer

- ☐ dogs
- ☐ #dogs
- ☐ *dogs

Question 6

2.5 / 2.5 pts

How do you make text bold? (when using CSS - NOT the html version of)

- ☐ font: bold;

Correct!

- ☒ font-weight: bold;

Yes! You must use font-weight to change the "weight" or thickness of your font.

- ☐ style: bold;
- ☐ No answer text provided.

Question 7

2.5 / 2.5 pts

Which property is used to change the font (as in how it looks) of an element? (think about when you "import" font)

Correct!

- ☒ font-family

Yes! Think of which "family" it belongs to -- font-family is correct!

- ☐ font-weight
- ☐ font-look
- ☐ No answer text provided.

Question 8

2.5 / 2.5 pts

How do you display hyperlinks without an underline?

- ☐ a {underling:remove}

Correct!

- ☒ a {text-decoration: none;}

Correct! Think of removing "decorations" and bringing it to a state of "none"

- ☐ a {remove-a-underline}
- ☐ No answer text provided.

Question 9

2.5 / 2.5 pts

How do you select an element with the --id-- of 'cats'?

Correct!

- ☒ #cats

Correct! Be sure to use the "octothorp" aka # <---- this! next to your "selector"

- ☐ .cats
- ☐ *cats
- ☐ cats

Question 10

2.5 / 2.5 pts

Which CSS property controls the text size?

- ☐ text-style
- ☐ font-change-size

Correct!

- ☒ font-size

Correct! Think of font and its size to make it change.

- ☐ No answer text provided.

Question 11

2.5 / 2.5 pts

Which CSS property is used to change the text color of an element?

Correct!

- ☒ color

Correct! As simple as it sounds, it's just "color" that achieves this!

- ☐ color-of-text

- ☐ fgcolor

- ☐ No answer text provided.

Question 12

2.5 / 2.5 pts

Which is the correct CSS syntax?

- ☐ {div: color: black;}

Correct!

- ☒ div {color: black;}

Correct! It goes selector first then the {} (aka Declaration Block)

- ☐ div {font color is black}

- ☐ {div color black}

Question 13

2.5 / 2.5 pts

How do you add a background color for all <h1> elements?

Correct!

- ☒ h1 {background-color: #fff; }

Correct! Selector first, then add the {background-color: #color-here}

- ☐ h1back {background to color #fff}

- ☐ allh1 {background: #fff}

- ☐ No answer text provided.

Question 14

2.5 / 2.5 pts

How do you change the styling of a class? In other words, how do you properly refer to a class in your CSS to be able to change the style?

- ☐ #p {...}

Correct!

- ☒ .p {...}

Correct! Must add the " . " first to make it a class (in front of the selector) and then add the the {} declaration block

- ☐ p {...}

- ☐ No answer text provided.

Question 15

2.5 / 2.5 pts

Which HTML attribute is used to define inline styles? (when you write it "inline" of a tag) -- in other words, how should it look in your HTML if you want to only change a <p> tag's style using the "inline" method?

Correct!

- ☒ style

Correct! You would do something like this for example:

<p style="color: blue;"> some words in here to make a paragraph </p>

- ☐ class

- ☐ font

- ☐ color

Question 16

2.5 / 2.5 pts

Which HTML tag is used to define an internal style sheet?

Correct!

- ☒ <style>

Correct! It would look like this:

```
<style>
```

```
h1 {...}
```

```
</style>
```

- ☐ <css>
- ☐ <script>
- ☐ No answer text provided.
